

## Acne Spot Treatment

*Targeted Treatment of Blemishes*

Acne spot treatment with salicylic acid and camphor reduces the redness and swelling of inflamed blemishes. Helps to minimize risk of scarring

### Benefits

- Encourages healing to minimize picking and chance of post-acne marks
- Reduces tenderness associated with acne breakouts
- Great proactive way to clear acne breakouts

### Featured Ingredients

**Salicylic Acid:** Derived from the bark of birch trees, this beta-hydroxy acid is capable of penetrating the skin's surface and getting into the pores to dissolve dead skin cells that cause acne breakouts. With powerful anti-inflammatory effects, it also helps decrease bacteria on skin that can encourage acne breakouts.

**Camphor:** This botanical skin freshener imparts an immediate cooling, soothing sensation and instantly makes breakouts feel less sore.

**Witch Hazel (Hamamelis Virginia Extract):** This botanical antioxidant has a gentle drying, anesthetic effect, making acne breakouts feel less sore.

### Directions

Apply a dab to each inflamed spot as needed.

### Ingredients

**Active Ingredient:** Salicylic Acid 2%

**Inactive Ingredients:** SD Alcohol 40-B, Water, Hamamelis Virginiana (Witch Hazel) Extract, Alcohol, Camphor.
